09:00 - 10:30		Introduction to Project Management: Learning Objectives and Outcomes Class Day by Mr. Rovshan Mammadov	Risks and Threats Assessments in the Fields of Peace, Justice and Security Class Day by Rovshan Mammadov
10:30 - 11:00		Coffee-Break	Coffee-Break
11:00 - 12:30		Participants will establish a solid conceptual foundation in modern project management. The session introduces project management as a value-oriented and principle-driven discipline that connects strategic objectives with structured execution.	Participants will be introduced to the seven Project Management Performance Domains, which describe the critical areas that drive successful project delivery.
12:30 - 14:00		Lunch	Lunch
14:00 – 16.00		Professionals will learn the six core principles that guide effective project management practice. Finally, professionals will gain clarity on the five Project Management Focus Areas: Initiating, Planning, Executing, Monitoring and Controlling, and Closing. They will understand how these focus areas structure the project lifecycle and provide governance from authorization through formal completion. By the end of Day 1, participants will possess a structured framework that integrates principles, mindset, development approaches, and lifecycle governance into a coherent professional practice model	The session will cover Governance, ensuring alignment with organizational strategy and oversight structures; Scope, defining and controlling what is included in the project; Schedule, managing timelines and milestones; Finance, planning and controlling costs and budgets; Stakeholders, identifying and engaging individuals or groups affected by the project; Resources, organizing and leading human and physical resources; and Risk, identifying, analyzing, and responding to uncertainties.
